INTRODUCTION

What is Google Antigravity?

Google Antigravity is an AI-powered website builder that lets anyone create a fully functional, beautifully designed website using nothing but a text prompt. No code. No design skills. No steep learning curve.

Describe your vision — the AI builds it for you in seconds.

Who Is This Guide For?

Beginners

Zero technical knowledge needed.
Start from scratch, launch fast.

Creators

Portfolios, blogs, brand pages.
No developer required.

Small Businesses

Build your online presence.
Affordable and instant.

What You Will Achieve

- **A live website** — Published and accessible on the internet
- **Multiple pages** — Home, About, Services, and Contact
- **Custom branding** — Your logo, colors, and images
- **Domain connection** — Your own .com or custom URL
- **Mobile-ready design** — Responsive on all screen sizes

■ **Estimated Time to Launch:** Under 30 minutes from start to live website.

STEP-BY-STEP PROCESS

Build Your Website in 6 Steps

01

Access the Tool

- Go to antigravity.google.com in your browser
- Sign in with your Google account (no sign-up needed)
- No downloads. No installations. 100% browser-based.

02

Enter Your Prompt

- Click 'New Project' and type your website description
- Be specific — include industry, pages, and design tone
- Example: "Modern clothing website for anime streetwear brand
- with homepage, product section, about page, contact form."

03

AI Generates Your Website

- AI instantly creates: full layout, page structure,
- navigation menu, content sections, and basic design.
- Pages included: Home · About · Services · Contact

STEP-BY-STEP PROCESS · CONTINUED

04 Customize Your Website

- Edit all text to match your brand voice
- Upload your own images and logo
- Adjust colors, fonts, and button styles
- Drag and rearrange sections as needed
- Preview on mobile before publishing

05 Publish Instantly

- Click the 'Publish' button — top right corner
- Your site goes live on a platform subdomain immediately
- Share the link. Your website is now on the internet.

06 Connect Domain & Go Live

CRITICAL STEP

OPTION A

Built-in Hosting

Use default subdomain
yoursite.antigravity.app
Free & instant

OPTION B

Custom Domain

Buy from GoDaddy/Namecheap
Add A record in DNS
Point to hosting IP

OPTION C

External Hosting

Export site (if supported)
Upload to Netlify/Hostinger
Connect domain & deploy

Connect Domain

LIVE

PRO TIPS

Get Better Results Faster

✓ Use Specific Prompts

Vague prompts give vague results. Describe industry, tone, pages, and color.

✓ Customize Your Branding

Always replace AI placeholder content with your own logo and text.

✓ Mobile-First Thinking

Check mobile preview before publishing. Over 60% of users are on phones.

✓ Keep Layouts Simple

Minimal design converts better. Avoid cluttering your homepage.

✓ Use High-Quality Images

Blurry images kill credibility. Use Unsplash or your own photos.

COMMON MISTAKES

Avoid These Pitfalls

- ✗ Writing generic, one-line prompts with no detail
- ✗ Publishing without reviewing or editing the AI content
- ✗ Ignoring mobile responsiveness before going live
- ✗ Not connecting a custom domain — looks less professional

WHAT AI GENERATES

Your Complete Website — Ready to Edit

- Full website layout & structure
- Homepage with hero section
- About page with placeholder content
- Services/Products section
- Contact page with form
- Navigation menu (auto-linked)
- Mobile-responsive design
- Ready-to-edit design structure

CONCLUSION

Your Website is One Prompt Away.

You now have everything you need to build and launch a professional website — without writing a single line of code. The only thing left to do is start.

**Speed**

Live in under
30 minutes

**Simplicity**

No code.
No complexity.

**Results**

Real website.
Real domain.
